BREAKING UP DISORDERLY CROWDS. The disorderly assembly cry is again heard. Grace, 31st, 32d, 30th and M seem to be the favorite stamping grounds for the assemblers. Last night Mary Smith fell a victim to police vigilance. Officer C. H. Bradley charges her with disorderly assembly. As heretofore stated in The Star, this is one of the commonest nuisances in town, and the seventh precinct police are making strenuous efforts to wipe out the evil. Merchants in the afflicted localities say that the obnoxious practice is about cradicated. The situation shows a marked improvement. Lieut Swindells states that the habit, so far as Georgetown is concerned, is steadily going to decay. He hopes that within a few weeks, with the vigorous assistance of his men, the charge indicated will seldom find a place on the station blotter. THE WHEELMEN'S ANNIVERSARY.

All the leading clubs of the city will be represented on the occasion. Tonight the cyclists will take a spin to Glen Echo, and on next Sunday River View will be visited. The 4th of Jaly run will be one of the features of the year. The Georgetown Cycle Club is said to contain more members than any similar organization in the Dis-

AMUSEMENTS.

ALBAUGH'S. - Seldom does a Washington audience accord a young man the reception which Mr. Lawrence Lowell received at Albaugh's The Reported Sale of the Great Theater last night over his interpretation of Gaspard in the "Chimes of Normandy." Owing to the sudden illness of Mr. Greensfelder Mr. Lowell was asked to fill the vacancy at the shortest notice and without a rehearsal. How well he succeeded was shown by the enthusiasm of the audience, who refused to be silence until the curtain had twice been rung up and finally for the third time he came before the footlights without his wig. The entire per-formance of the opera has met with un-usual success, and it would seem that in the hands of a good company this city will never tire of the beautiful music and bright effects which Robert Planquette has produced in it. The boom-de-aye dance of the little girls in the first act has made a great hit and each night they are compelled to repeat until tired. Indoors Miss Clara Beckwith, the champion lady swimmer of the world, will continue to be the feature. New aquatic feats may be classed among the novel acts that will bear repetition.

FITZSIMMONS' AUDITORIUM THEATER.—The only vaudeville entertainment to be seen in this great city at the present season is to be found every afternoon and night at Fitzsimmons' Auditorium Theater. The ladies are there, for it is for the ladies and children as well as the general public, and the continuous performance from 1 o'clock to 10:30 p.m. affords perfect satisfaction. This week's new company includes Fitzgerald and Lewis, the sketch stars; Theodore, the automata wonder worker; Miller and May, the German sweethearts; Harry C. Gardner, the magical surprise; Mr. Gilmore and Dolores, Fernandez, the dancer; George Wallace, the singer, and a fine show in general of refined variety.

BISHOP BARKER of Western Colorado will make an address in St. Paul's Church, on 23d street, this evening. He is said to be an extremely interesting talker, and a large attendance is expected.

Judge Kimball, as follows:

Dear Frank: Yours of the 3d instant just received: also letter (which was a corker) telling of your broken home, which was forwarded. I telegraphed you a few days are, and I will remein a month anyway. Think we can do well here, as I have a business man who is introducting me to the moneyed people of Chicago. If you want to come or, do so, or I will join you at Washington the 1st of July to go to the Pier. Have a good poker man with me, and we are out here today arranzing to do business in this hotel with the manager. I am doubled up, but that don't cut any faure in case you come in a way of doing some business. If Be t isn't drinking too much bring him with you. Every one will be here and if we get started in are bound to make money. Yours, with love from Lill and myself, and our best wishes to Bert and yourself. GOGRGE.

Judge Kimball commented on the letter, repeating that portion of the document which said bring a good poker player with you. "Send him to Chicago and we get rid him." remarked Mr. Carrington.
"But." said the court, "I'm afraid the
people of Chicago would not thank us for it." Mr. Carrington added that a poker player who goes to Chicago had better be a good one or he will get fleeced.

Judge Kimball scored the defendants as gamblers, and said that Ellis was a crook who wanted to fleece people at playing poker. These gamblers are not the kind of men that are wanted here.

They are now asserting that they own enough land west of the seventy-second to run their track around it, and even have staked off the necessary distance. What their object is in making a claim that is

proven false by the records, as made by their own engineer and on file in the court house, is difficult to understand, unless they think that they can intimidate the Land and Improvement Company into selling them the necessary right of way. They have, it is understood, offered \$1,000 for enough land to go around the seventy-second's plot, but they could not buy it for \$10,000, and the gentleman in charge will put an injunction on them the moment they begin to work on the land. Incidentally, it may be well for the seventy-

second veterans to know that while their plot is now filled, and in a manner restored to its original condition, the workmen are driving their carts over it, and are trepassing on it constantly. It could hamper them considerably if the regiment would order them to keep off the Quartermaster General Levering of the Penn sylvania G. A. He is ninetysix years old, will, in fact, be ninety seven of the 12th of August next. There is no doubt about his age or nativity, for these matters were verified by his son John Columbus, with whom the old man makes his home, and who for that purpose paid a visit to Quebec, near where Alexius was born and reared. The old man is in fairly good health. His skin is swarthy and his hair is snow white. His

children are of lighter complexion except one daughter, Mrs. Rosa Columbus Sours of Chicago, who inherits her father's dusky skin. Since the death of his wife last spring at the age of seventy-six Alexius has been steadily failing

The old man is a great lover of tobacco. He constantly chews or smokes. He has always drank, and to this day has his bottle of whisky in his room, from which he takes a nip whenever he feels so in-clined. Of late the old man has not been regu-lar in his drinking habits, and will sometimes pass a day or two without taking a dram. His sons attribute this to approaching dissolution and think the old man has not long to live.

"I have been asked several times," said John Columbus, his son, "if father would go to the world's fair. Some of my sisters are very anxious that he should go, but I oppose the idea. I think the old man would better pass the remainder of his days in quiet here than to be exposed to the dangers of travel and the fatigue. Besides I hardly think the old gentleman would enjoy it. He is not a learned man. He never had any schooling. He cannot read and he hardly appreciates the significance of His son John, it may be added, is a well-

Mr. Stump on Stowaways.

Col. Stump. superintendent of immigration, Treasury Department, has decided that all stowaways who are aliens and arrive in vessels from foreign ports must be treated by immigration commissioners as alien emigrants, and vessels bringing them will be held liable for all penalties. This method has, it is said, been a prolific source of fraud in the past. By this means the government has not only lost its head tax, but emigrants coming this way have eluded the health officers.

Should the people of India grasp the full significance of the recommendation to stop coining silver for private account, he said, a rebellion might immediately follow, as the natives had been exasperated greatly already by the apparent indifference of the home government to the gravity of the silver crisis.

"I am told," Mr. Chaplin added, "that the Herschell committee proposes to empower the Indian government, during the suspension of silver coinage for private account, to sell rupees silver coinage for private account, to sell rupees to those wanting them at the rate of 1 shilling
